Overprints on #1 and #2 Stamps of RSFSR.**

Overprint “Доплата 12 коп. золотом.” on stamp #1
надпечатка «Доплата 12 коп. золотом.» на марке 1

Structure of overprint types

Roman Numerals indicate the arrangement of overprint lines considering the distance between the denomination numeral and the overprint abbreviation.

First capital letters denote variations in the fonts of overprint denominations.

Second Roman Numerals represent defects and differences in fonts between overprint denominations and text.

Lowercase letters signify differences in the placement of dots after the words "КОП" and "ЗОЛОТОМ".

Структуризация типов надпечаток

Римские цифры — взаиморасположение строк надпечатки с учетом расстояния между цифрой номинала и КОП.

Первые заглавные латинские буквы — различия в шрифтах номиналов надпечаток

Вторые римские цифры - дефекты и различия шрифтов номиналов и текста надпечаток

Строчные латинские буквы — различия в расположении точек after слов КОП и ЗОЛОТОМ

<p>TYPE I The numerals 1 and 2 are positioned at the same level.</p> 	<p>TYPE II The numeral 1 is positioned higher than the numeral 2.</p> 
<p>First numeral of the denomination - A The numeral 1 has its lower part of serif angled. The numeral itself is primarily thin.</p> 	<p>Second numeral of the denomination - A All elements of the numeral 2 of the denomination have the same thickness.</p> 
<p>First numeral of the denomination - B The numeral 1 has a straight lower part of serif. The numeral itself is primarily thin.</p> 	<p>Second numeral of the denomination - B The elements of the upper curve of the numeral 2 of the denomination are thicker.</p> 
<p>First numeral of the denomination - C The numeral 1 is taller, with its bottom aligned with the numeral 2. The lower serif of the numeral 1 is straight, and the numeral itself is thick.</p>
